Volume 22
Winter 2025

About Us

UnderCurrents is a collectively- and student-run journal based out of the Faculty of Environmental & Urban Change at York University (previously the Faculty of Environmental Studies), in Tkaronto / Toronto, Canada.

UnderCurrents explores relations among environment, culture, and society. We are committed to publishing a variety of scholarly, creative, and activist work that critically engages with conceptions of the environment and seeks to break down traditional interpretations of the world around us. All back volumes are available, free of charge, on the UnderCurrents website.
